## **Newborn Office Visit**

The first office visit for your baby is usually 1 to 3 days after discharge from the hospital unless you are told otherwise. Please call our Central Appointment Line at 303-699-6200 to schedule this appointment as soon as possible. Also please bring any information about the baby that you are given from the hospital. At this visit the baby's weight will be checked, a physical exam will be performed, and we will answer any questions you may have.

Following this initial visit, we will see your baby regularly until feeding and weight gain are established and again at 2 weeks of age (at which time we will do the second newborn screen).
